Subject: RE: Press inquiry

Hi Lisa,

Here is a statement from the Agency. I'm not sure I see any contact info for Greg, so you may need to share this.

Bill

The U.S. Environmental Protection Agency has notified the San Francisco Public Utilities Commission that it has identified violations of the City and County of San Francisco's National Pollutant Discharge Elimination System permits regulating discharges from the city's wastewater treatment plants, 36 combined sewer discharge facilities and its combined sewer system, based on inspections and field visits in 2015 and 2016, and subsequently gathered information, such as monitoring data. As the notice explains, the failure to properly operate and maintain the City's sewage collection and treatment facilities creates public health risks. For example, lack of proper operation and maintenance has caused force main and pump station failures that have diverted substantial volumes of raw and partially-treated sewage to flow across beaches and into the San Francisco Bay and the Pacific Ocean. EPA expects San Francisco to share its concern for the protection of public health and surface water resources and to address its ongoing Clean Water Act violations with significant and meaningful measures to ensure a prompt return to full compliance.

The notice of violation can be found at <https://www.epa.gov/ca/city-and-county-san-francisco-npdes-notice-violation-october-2-2019>

Subject: Press inquiry

Hello Glenn,

We are reporters at KTVU in Oakland, Calif.

We just heard Trump say at an impromptu presser in the Oval Office today (next to the president of Finland, that “We just sent a violation to the city of san Francisco” about unsafe water and unsafe conditions

1. Did he in fact send that notice? If so, could you send to us?

Would you please copy Greg above? He’s doing a story today about it.

Thanks!

Lisa Fernandez
